SUMMARY

I am a software developer with an admiration for MERN/PERN stacks and can adapt to difficult situations in order to deliver creative solutions. With a background in restaurant management, I thrive in a fast paced environment and achieve results using effective communication and a strong work ethic. I enjoy teamwork and am dedicated to helping people which reflects my brand of leadership and sets a good example for my peers. Pairing these skills with my passion for community outreach and environmental responsibility, I am an asset to any professional team.

SKILLS

Frontend Languages// HTML, CSS, JavaScript, jQuery, React
Backend/Frameworks // Node, Express, Ruby on Rails, Laravel, PHP, MongoDB, PostgreSQL

PROJECTS

Triple J Painting Company
Single page application built using a Laravel/PHP stack with React on the frontend and a PostgreSQL database. The user can read/post reviews and there is an admin route for update/delete options.

Counter Culture Records
Multi page application built using JavaScript, EJS, Node, Express, Mongoose, and MongoDB. Users can create an account and log in to create/read/update/delete content. The content can then be accessed by category and has a clean, mobile-friendly layout.

Quiz.js
Collaboration initially built with Ruby on Rails and then refactored into a Laravel/PHP stack with React and PostgreSQL.

The Joke Store
Front-end application built with HTML, CSS, JavaScript, jQuery and two API's. User data is stored locally in the browser.

EXPERIENCE

Software Engineer Fellow // 2020-2021
General Assembly // Immersive, Remote
- Learned the foundation of multiple languages and best practices.
- Worked with commonly used platforms such as GitHub, Heroku, and Wordpress.
- Collaborated with other software developers on multiple projects.

Assistant General Manager // 2019-2020
Illegal Pete's // Denver, CO
- Learned and taught all positions and systems in a short amount of time.
- Participated in monthly P&L reviews where I could speak to all metrics of the business.
- Organized 8 community fundraising events to raise over $10,000 for select schools and charities.

EDUCATION

General Assembly   11/2020-2/2021
Software Engineering Immersive Remote
